

# Vision

Routine vision exams are important, not only for correcting vision but because they can detect other serious health conditions.

Vision care is provided by a network of eye care professionals called Medical Eye Services (MES). Comprehensive eye exams are covered in full, every 12 months. Please note that the contact lens exam is not part of the comprehensive eye exam but can be taken out of the contact lens benefit. You must wait a complete 12 months between exams. One pair of eyeglass lenses, frames, and/or contact lenses is also covered every 12 months. To receive 100% coverage, you must use an MES provider. To locate an MES provider, contact (800) 877-6372. MES Vision Optics is an online optical provider for items such as readers, sunglasses, and contact lens accessories available for purchase. MES Vision plan members simply go to [www.mesvision.com/Optics](http://www.mesvision.com/Optics) and login. If you do not have access to the website, you can also contact MES Vision Optics at (866) 651-2228.

	Medical Eye Services (MES) Vision
